

How do I install Duo Mobile?

1. To install the Duo Mobile app on your mobile phone or tablet, go to the [AppStore](#) or [Google Play Store](#) and search for *Duo Mobile*.
2. Download and install the app by following the provided steps

I have received an email from Duo Security Enrollment (no-reply@duosecurity.com), what do I do with it?

The email states that RSU, as an organization, is now using the *Duo Security tool* to make connecting to RSU systems even more secure. It's best to register your account if you use your computer and phone separately.

To register your Duo account, click the link on your computer and follow the steps:

Hello,

Your organization is now rolling out Duo Security, a friendly and secure way for you to log into your applications. Your administrator has invited you to set up your account for Duo so you can start logging in.

To begin, click this link to enroll a phone, tablet, or other device:

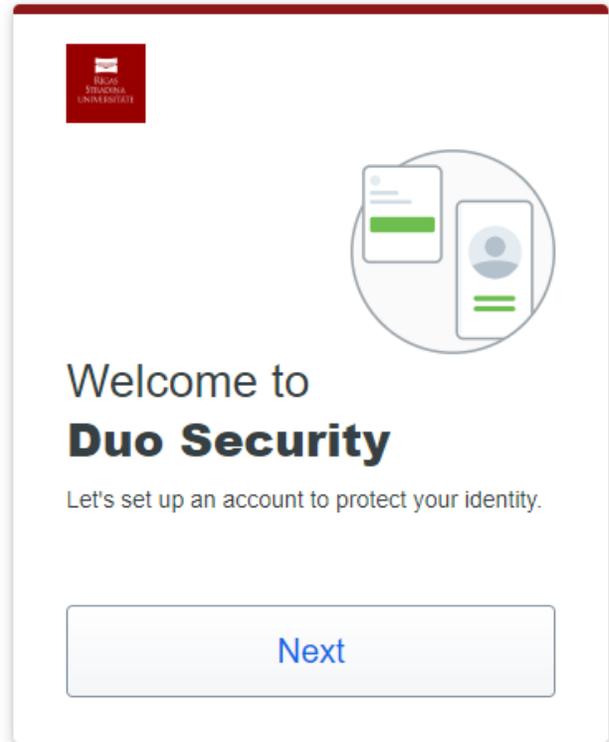

<https://api-d9a8b7db.duosecurity.com/portal?code=a492e9cba67ac645&akey=DAQJHV7LDO2WN77CTTIG>

Duo Security is a two-factor authentication service that strives to be easy to use and secure. To learn more about Duo authentication, visit the guide here:

<https://guide.duo.com/enrollment>

1. Clicking on the link opens the following window.

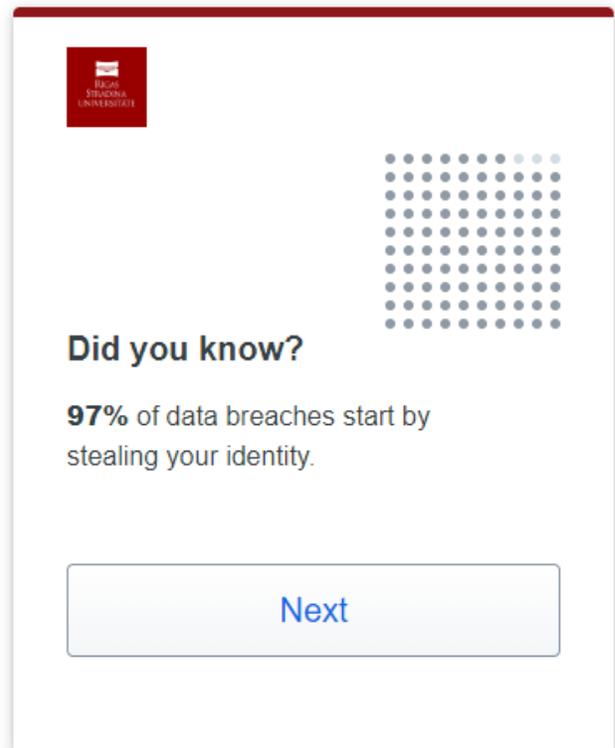

Click *Next* to start your registration.

The screenshot shows a registration window for Duo Security. In the top left corner is the logo for Regis Students University, which consists of a red square with a white cross and the text 'REGIS STUDENTS UNIVERSITY' below it. To the right of the logo is a circular graphic containing icons for a smartphone and a tablet. The main text reads 'Welcome to Duo Security' in a large, bold font, followed by the subtitle 'Let's set up an account to protect your identity.' At the bottom center is a light blue button with the word 'Next' in a darker blue font.

2. Some statistics about data breaches.

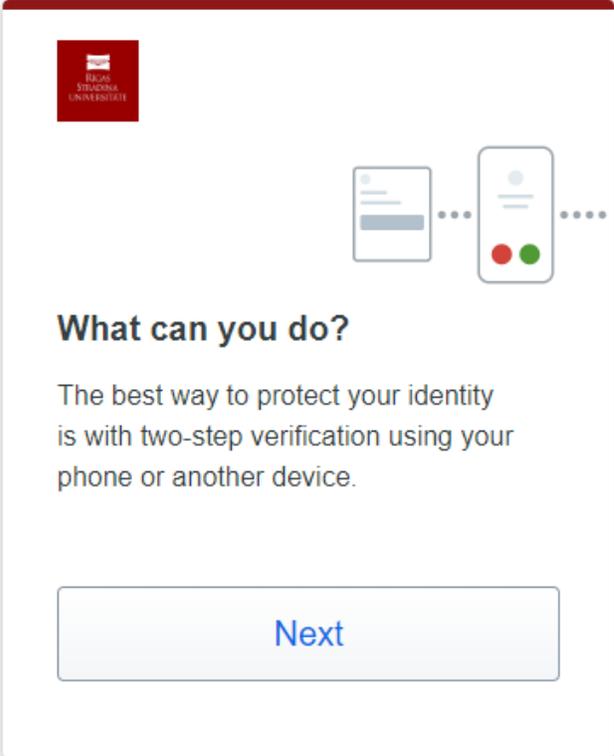

Click *Next*.

The screenshot shows a statistics window for Duo Security. In the top left corner is the logo for Regis Students University. To the right of the logo is a graphic of a grid of dots, with the top-right corner of the grid fading out. The main text reads 'Did you know?' in a bold font, followed by the statistic '97% of data breaches start by stealing your identity.' At the bottom center is a light blue button with the word 'Next' in a darker blue font.

3. The best way to protect your identity is with two-step verification using your phone or another device.

Click *Next*.

What can you do?

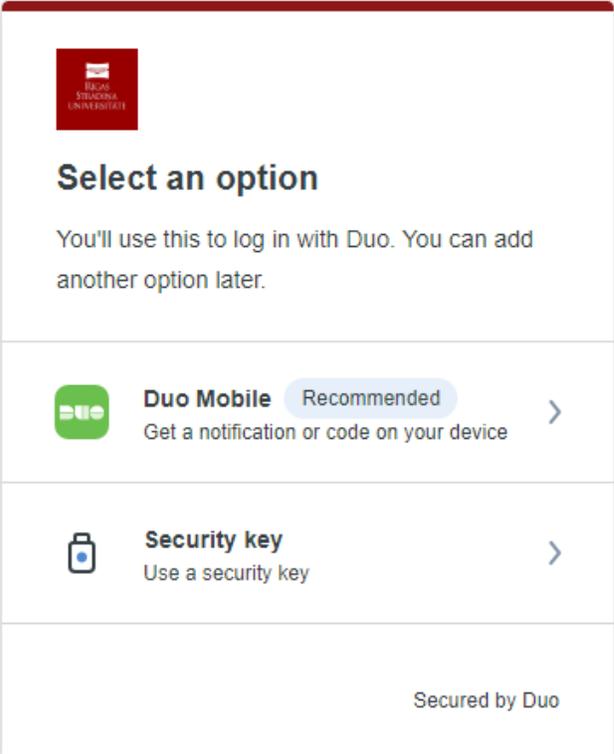

The best way to protect your identity is with two-step verification using your phone or another device.

Next

4. Choose your preferred verification method:

- Duo Mobile allows you to get verification notifications in your mobile phone
- Security key is a USB key provided by RSU - it is an alternative to Duo Mobile that is available only after confirmation from your manager.

It is recommended to use Duo Mobile.

Select an option

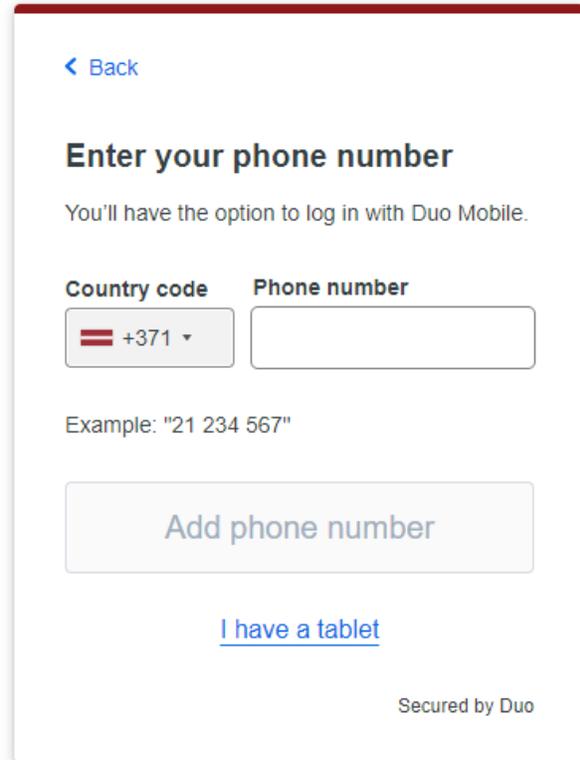

You'll use this to log in with Duo. You can add another option later.

Duo Mobile Recommended >

Secured by Duo

5. If you chose Duo Mobile the next step is to provide your phone number.
- If you do not want to share your phone number you can click on "*I have a tablet*" - it will also work on mobile phone.

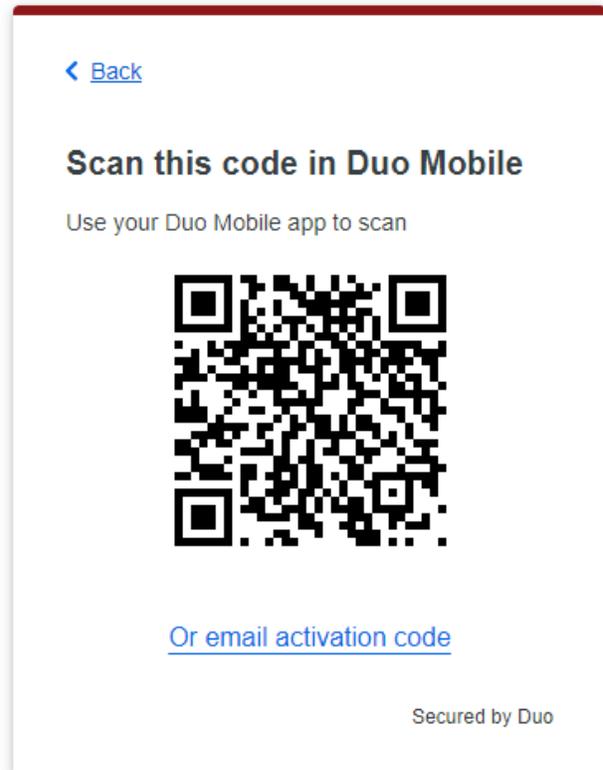

The screenshot shows a mobile interface for entering a phone number. At the top left is a blue back arrow and the text '< Back'. The main heading is 'Enter your phone number' in bold black text. Below it, a subtitle reads 'You'll have the option to log in with Duo Mobile.' There are two input fields: 'Country code' with a dropdown menu showing '+371' and a flag icon, and 'Phone number' with an empty text box. Below these fields is an example: 'Example: "21 234 567"'. A large, light blue button with the text 'Add phone number' is centered below the example. At the bottom center is a blue link that says 'I have a tablet'. In the bottom right corner, it says 'Secured by Duo'.

6. If you chose to provide your phone number, confirm it is correct by clicking "*Yes, it's correct*". You will land on this screen.
- If you chose "*I have a tablet*" you will see this screen straight away.
- At this step you need to download and install Duo Mobile app. Go to [AppStore](#) or [Google Play](#) "Store" and search for **Duo Mobile**. After successful installation click *Next*.

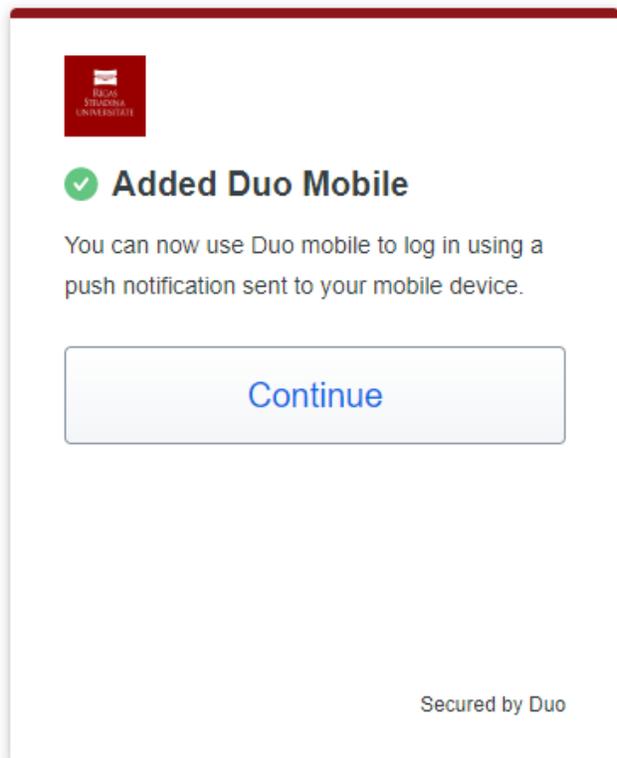

The screenshot shows a mobile interface for downloading the Duo Mobile app. At the top left is a blue back arrow and the text '< Back'. The main heading is 'Download Duo Mobile' in bold black text. Below it, a subtitle reads 'Available on iOS and Android'. In the center is a large graphic of the Duo Mobile app icon, which is a green rounded square with the word 'DUO' in white. Below the icon is a large, light blue button with the text 'Next' in blue. In the bottom right corner, it says 'Secured by Duo'.

7. At this step you will see a QR code. You must scan it with your phone or tablet that you used to install Duo Mobile.
- Open Duo Mobile app
 - Click on "+" in the upper right corner
 - Choose "Use QR code"
 - Scan the QR code
 - Choose your account name. By default it will be "Riga Stradins University"

8. After that you will see a message about successful registration.
- Click *Continue*.

9. DUO is successfully connected. You can close your browser tab.

Please keep in mind that after successful registration it can take some time before you will be asked for DUO at RSU system logins.
