Zoom sapulces izveidošana un pieslēgšanās izmantojot RSU SSO autentifikāciju

Zoom sapulču izveidotāji (Hosts) var izveidot sapulci kurā var pieslēgties tie lietotāji, kuri ir pierakstījušies izmantojot RSU SSO autentifikāciju. Tas var būt noderīgi, ja vēlaties ierobežot dalībnieku sarakstu ar lietotājiem tikai no RSU.

Vērtīgi šādas sapulces izveidot ir, ja pēc sapulces vēlaties uzzināt informāciju par dalībniekiem, kas ir pieslēgušies, jo tad katrs lietotājs tiks pieslēgts ar savu vārdu, uzvārdu, kas uzrādīsies arī atskaitē.

Zoom sapulces izveide ar RSU SSO autentifikāciju

Lai iespējotu vai atspējotu *Require authentication to join: RSU SSO Autentifikacija* Zoom sapulcēm:

- Pierakstieties tīmekļa portālā Zoom ar savu darbinieka RSU kontu
- Navigācijas izvēlnē noklikšķiniet uz Meetings.

Zoom meeting creators (Hosts) can create a meeting in which those who have signed in using RSU SSO authentication can join it. This can be useful if you want to limit the member list to verified users from RSU only.

It is worth creating such meetings if, after the meeting, you want to find out information about the participants who have connected, because then each user will be signed in with his name, surname, which will also appear in the report.

Zoom meeting creation using RSU SSO authentication

To enable or disable *Require authentication to join: RSU SSO Autentifikacija* for your Zoom meetings:

- Sign in to the Zoom web portal with your RSU credentials.
- In the navigation menu, click *Meetings*.
