- **24 & 26 March:** the conference [University Teaching and Learning](#) will conclude RW2021 with technology-enhanced learning as its focus.

Frequently asked questions

Registration for participants opens on **8 March**. Abstract authors and coauthors of RW2021 will receive automatically generated access via e-mail. Achievements and development of Science is one of the top priorities of Rīga Stradiņš University, therefore attendance to RW2021 is **free of charge**. [ISC2021](#) terms are different; therefore for more information visit [ISC2021 conference website](#).

The official language of the conference is English.

Yes, attending the conference is certified with 8 CME credits/day.

In order to receive CME credits you must register online and actively participate in RW. More information on registration and attendance will follow after abstract submission is finished.

To ensure the proper processing of conference participants' personal data we hereby inform you that participants' personal data – photographs, voice or video recordings – obtained within the frame of the events of RSU Research Week might be subject to processing. Your personal data might be used to further the interests of Rīga Stradiņš University, e.g. for marketing or communication activities (incl. social media coverage).

For additional information about your rights and personal data processing procedures at RSU see [RSU Privacy Policy](#)

Should you have any objections to your personal data being processed please inform us via e-mail at conference@rsu.lv

We would like to inform you that presentations submitted to the RSU Research Week, as well as posters, are publicly accessible and available for download for study and research purposes.

Each Research Week participant certifies their compliance with third party intellectual property rights when creating (performing) their material, thus indemnifying the Commissioning party against third party claims.
